

THE EMINENCE

1975

Man is able to compare and to contrast the "here and now" with the "there and then."

He can think back and remember the places he has been, recall the people he used to know.

When man's memories cause him to yearn wistfully to return to the past, he is moved by a mixture of joy and sadness called NOSTALGIA.

ACTIVITIES

Nostalgia is perhaps composed of regret, desire, and sorrow at the realization of the inevitability of change. However, it is only in that which we have assimilated from the past that we can attempt to build the present and consequently prepare for the

future. What is found in the effect of today is already in the cause—yesterday. Our yesterdays follow us and study them we must do, if we are to divine the future.

Today is ours, the very life of life. We must see that it becomes one of the good old days we'll miss ten years from now. Today is our only means available to get to tomorrow. The future will be purchased by our present.

Tomorrows always present themselves in order that new ideas might live. We must not be afraid of tomorrow for we have seen yesterday and live today. Tomorrow makes today worth living. Tomorrow is hope.

TRATION/ ADMINISTRAT

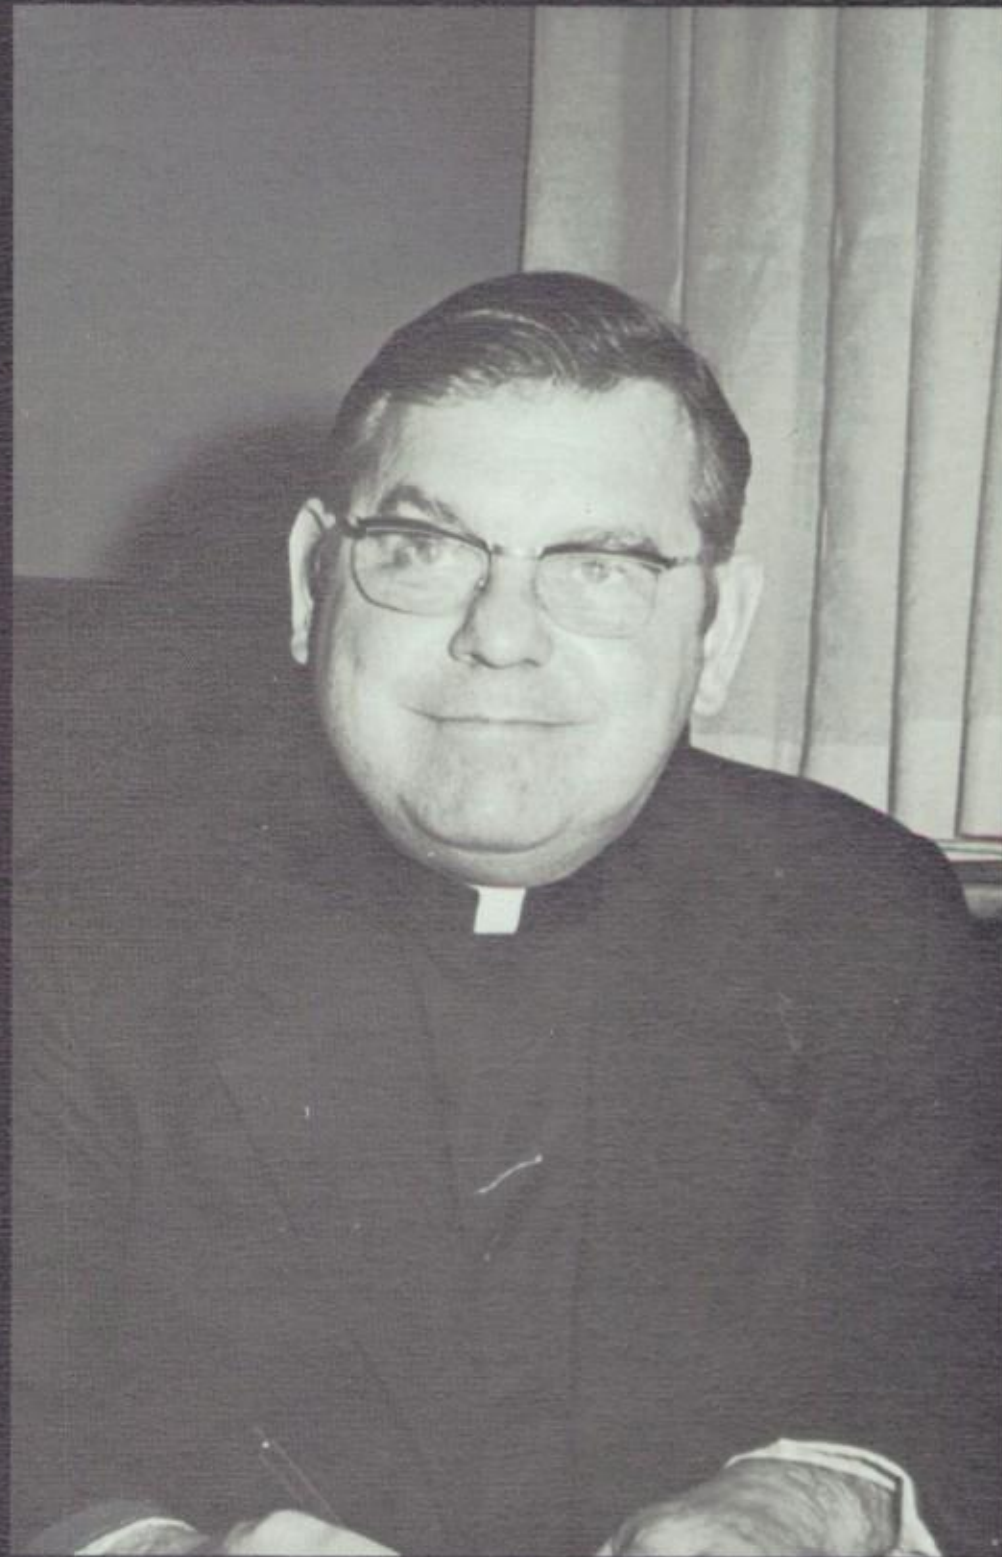

The "administrative" framework of Cardinal Dougherty began with the appointment of Monsignor Adolph I. Baum as first principal. His term was short lived and in 1957 Reverend George T. Concannon succeeded him. The past years have afforded us with many able administrators who willingly served the Dougherty Community. With

sincere interest we must look back and realize that the work done by the entire administrative system was effected for the good of all.

Our yesterdays will continue to follow us—they give character and force and meaning to our present situation.

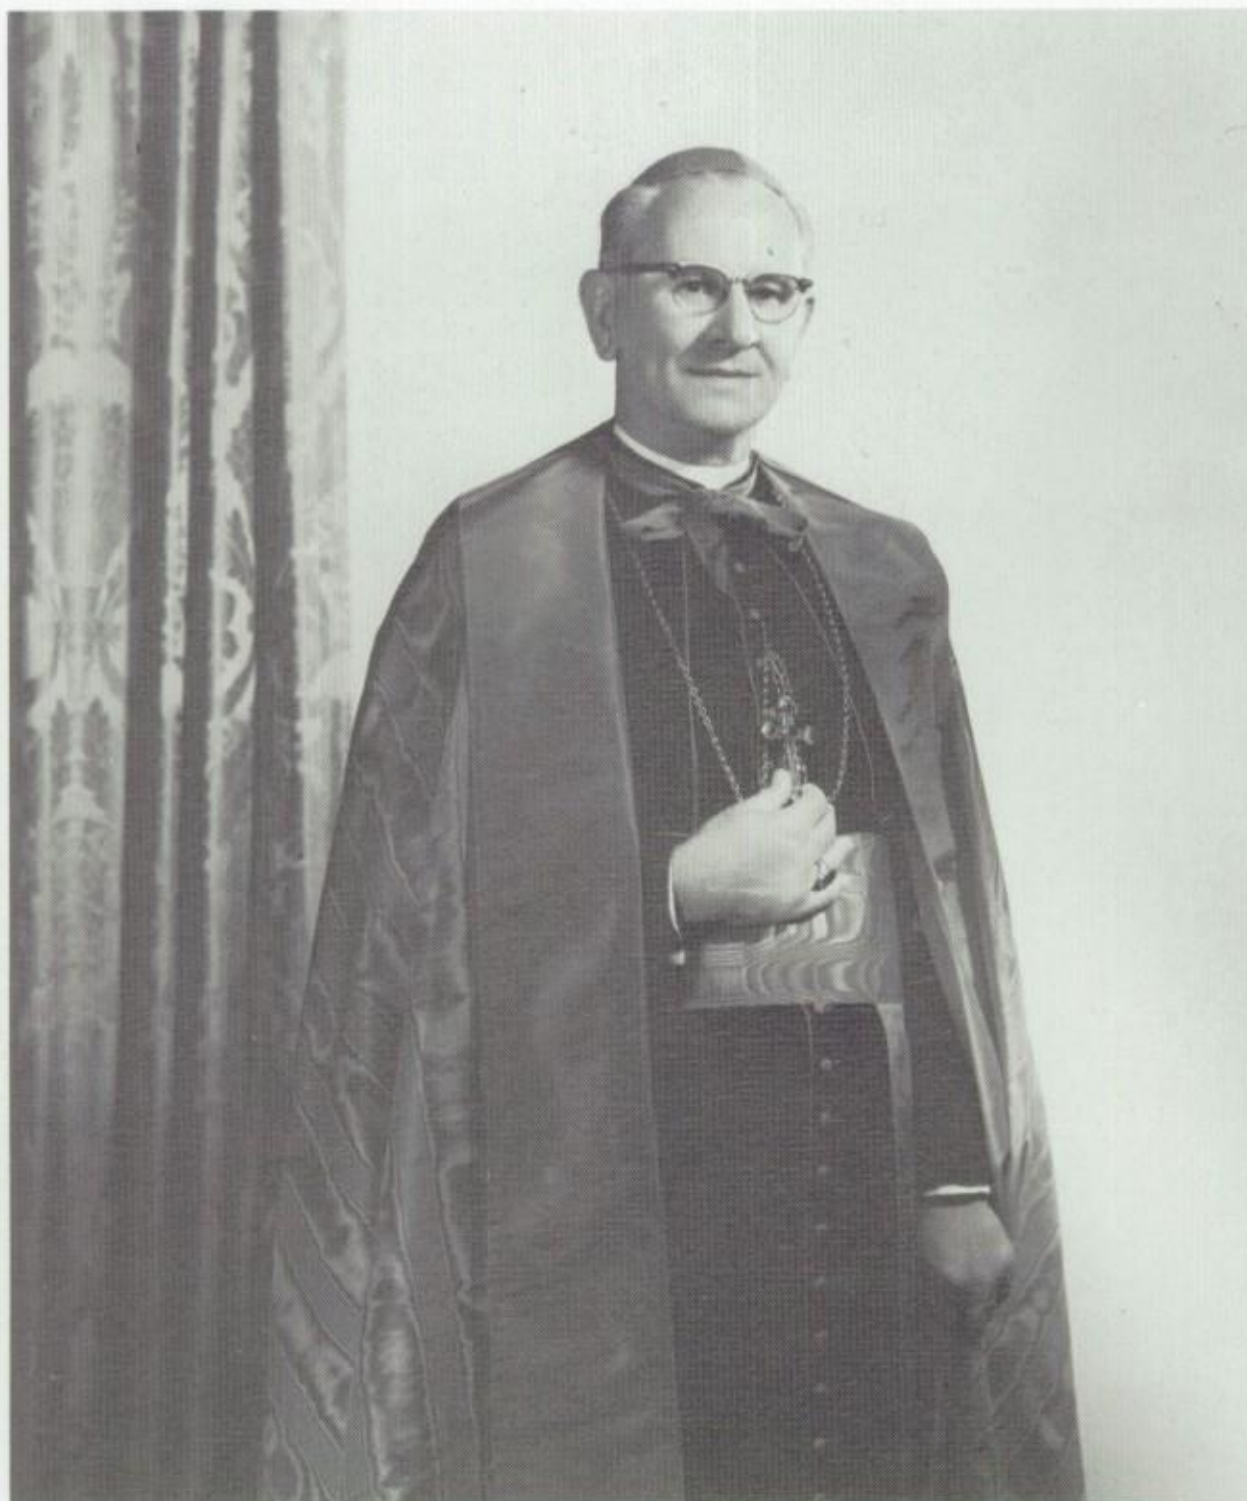

ION/ ADMINISTRATION

The wisest plan for a better tomorrow is a better today. Such a wise plan continues with the present Dougherty administration. They are ever ready to contribute to the betterment of the school. Spiritual and intellectual growth of the student body is

enhanced under the current leadership of Reverend Bernard J. Trinity.

Tomorrow's C.D. will continue to build upon the accomplishments of the present and the past.

/ACTIVITIES/ ACTIVITIES/

Activities have always played an important part in C.D. In the past such activities were rather limited but as the times changed it became necessary for activities to expand. During the school week one went to band practice, glee club, council meetings or show rehearsals. Later on, CSC and language

clubs formed. Individual classes such as business, science, home economics and art met in groups to discuss their specific interests. The weekends found the Dougherty community at shows, recitals and dances. The activities of "then" involved many Dougherty people.

ACTIVITIES/ACTIVITIES

Today, there are some fifty-four groups, clubs and services which are active in C.D. These clubs range from the faithful council, band, glee club and school publications to the 3M, Shalom, Open-Door and Respect-Life. CSC which has branched out over the years, now provides its services to many people in the local community. Dances continue to be

a social highlight although the skirts are shorter, the hair longer and the music louder—so they say.

Through activities, student and faculty come to know one another in a more casual and personal manner. These groups are the life line of our school.

The Parade of Champions is a band spectacular, not a competition, but more than an exhibition. The aim of the festival is to be a showcase, an opportunity for the finest high school bands to present to the public a panorama of the music, marching and pageantry which makes them championship bands.

For the past ten years, our band has had the privilege and the honor to be the host of this great event. Bands, of equal color and talent, come from all parts of the country to participate in the "Parade."

Each of the bands is given a rating in music and marching by professionals in the field. Military inspection is also taken into consideration before each twelve minute performance. Silver or bronze plaques are awarded to those bands whose overall performance is outstanding. The "Parade of Champions" is a result of the high standards, dedication and spirit of the individual band members, as well as those who were responsible for starting this festival.

S/ SPORTS/SPORTS/ SPORTS/

Over the past nineteen years, the word "champion" has become a familiar phrase in the Dougherty vocabulary. The Cardinals established themselves early as top athletic contenders. They played with the best and as the best. Every sport from football to golf has been a C.D. champion! These sportsmen put in many hours of monotonous prac-

tice and felt the tension of the big game!! Some were professional benchwarmers but that did not dampen the enthusiasm, for all experienced the depression of defeat and more importantly, the joy of victory! Skilled coaches, loyal fans and devoted families contributed much to the athletic arena.

SPORTS/ SPORTS/ SPORTS

In retrospect one sees that the athletes of yesterday paved the way for the sportsmanship that we experience today.

Today's sports seem a little more refined, if not more technical. Updated equipment and better facilities make for better teams. Perhaps the biggest difference of the "now" is the greater participation

of the female athlete. Today, girls are more involved in sports than they were in '56 or even '69.

Athletic competition is a stepping stone to the future. It teaches self-assertion and self-discipline. One learns how to accept defeat with honor and victory with pride.

CLASSES/ FACULTY @ CLAS

The "pioneers of knowledge," our original faculty, contributed to the growth and development of our present day education. Through their guidance and wisdom, they enabled many young men and women to attain a unique perception of the

outside world. There was no pattern to follow or pieces to pick up; they had to begin and build upon their endeavors to make Cardinal Dougherty the landmark it has become.

SES/ FACULTY & CLASSES

Although the faculty has experienced many changes, those ideals fostered by the "founding fathers" are still upheld today. New educational techniques have been incorporated to expand the growth of the student body to levels previously not achieved.

One outstanding quality, found in this school throughout the years, has been the sense of friendship and unity between the faculty and student body. This unique relationship has benefited all—we, who make up the Cardinal Dougherty community.

It's just "mind over matter" but I think it's more getting your "matter over your mind."

NIORS/SENIORS/SENIORS/SE

Seniors, whose names and faces continually change, remain, however, essentially the same throughout the years. All begin as Freshmen, young and green, setting out on a four year journey filled with adventures, memories and dreams. In time, a uniqueness of one among many is discovered as

all facets of Dougherty are encountered. A diversity of talents reveals itself as each contributes to the beauty of the whole. During these years, minds, bodies and souls develop and strengthen into maturing adults.

NIORS/SENIORS/SENIORS

Our "Senior Year" was a special time. It held the excitement of Ring Day, the tension of "Boards" and interviews, the glamour of the prom and the anticipation of the final day.

Future plans took root, as graduation became more of a reality. For some, this was a time of great relief and joy; for others, a time of fear and confusion and for most, a time of sadness that comes

with saying "good-bye."

The inevitability of change is ever before us. Our four years at C.D. have been part of the eternal landscape of the past. It is time for us to advance forward. Graduation brings not an end but rather a new beginning. The task is ours to make the future, fruits of our yesterdays. Hope shall brighten days to come and our memories shall gild the past.

Jerry

*"Death's but a path we must trod,
If man would ever pass to God."*

Jerry Bender

For those who knew him, it is a hard name to forget.

He was the one who always screamed the loudest at football games.

He was the kid who was always bragging about his Minnesota Vikings and Notre Dame teams.

He was the boy that sometimes daydreamed while humming Chicago's latest hit.

He was the youth you could tell enjoyed living by the way he lived.

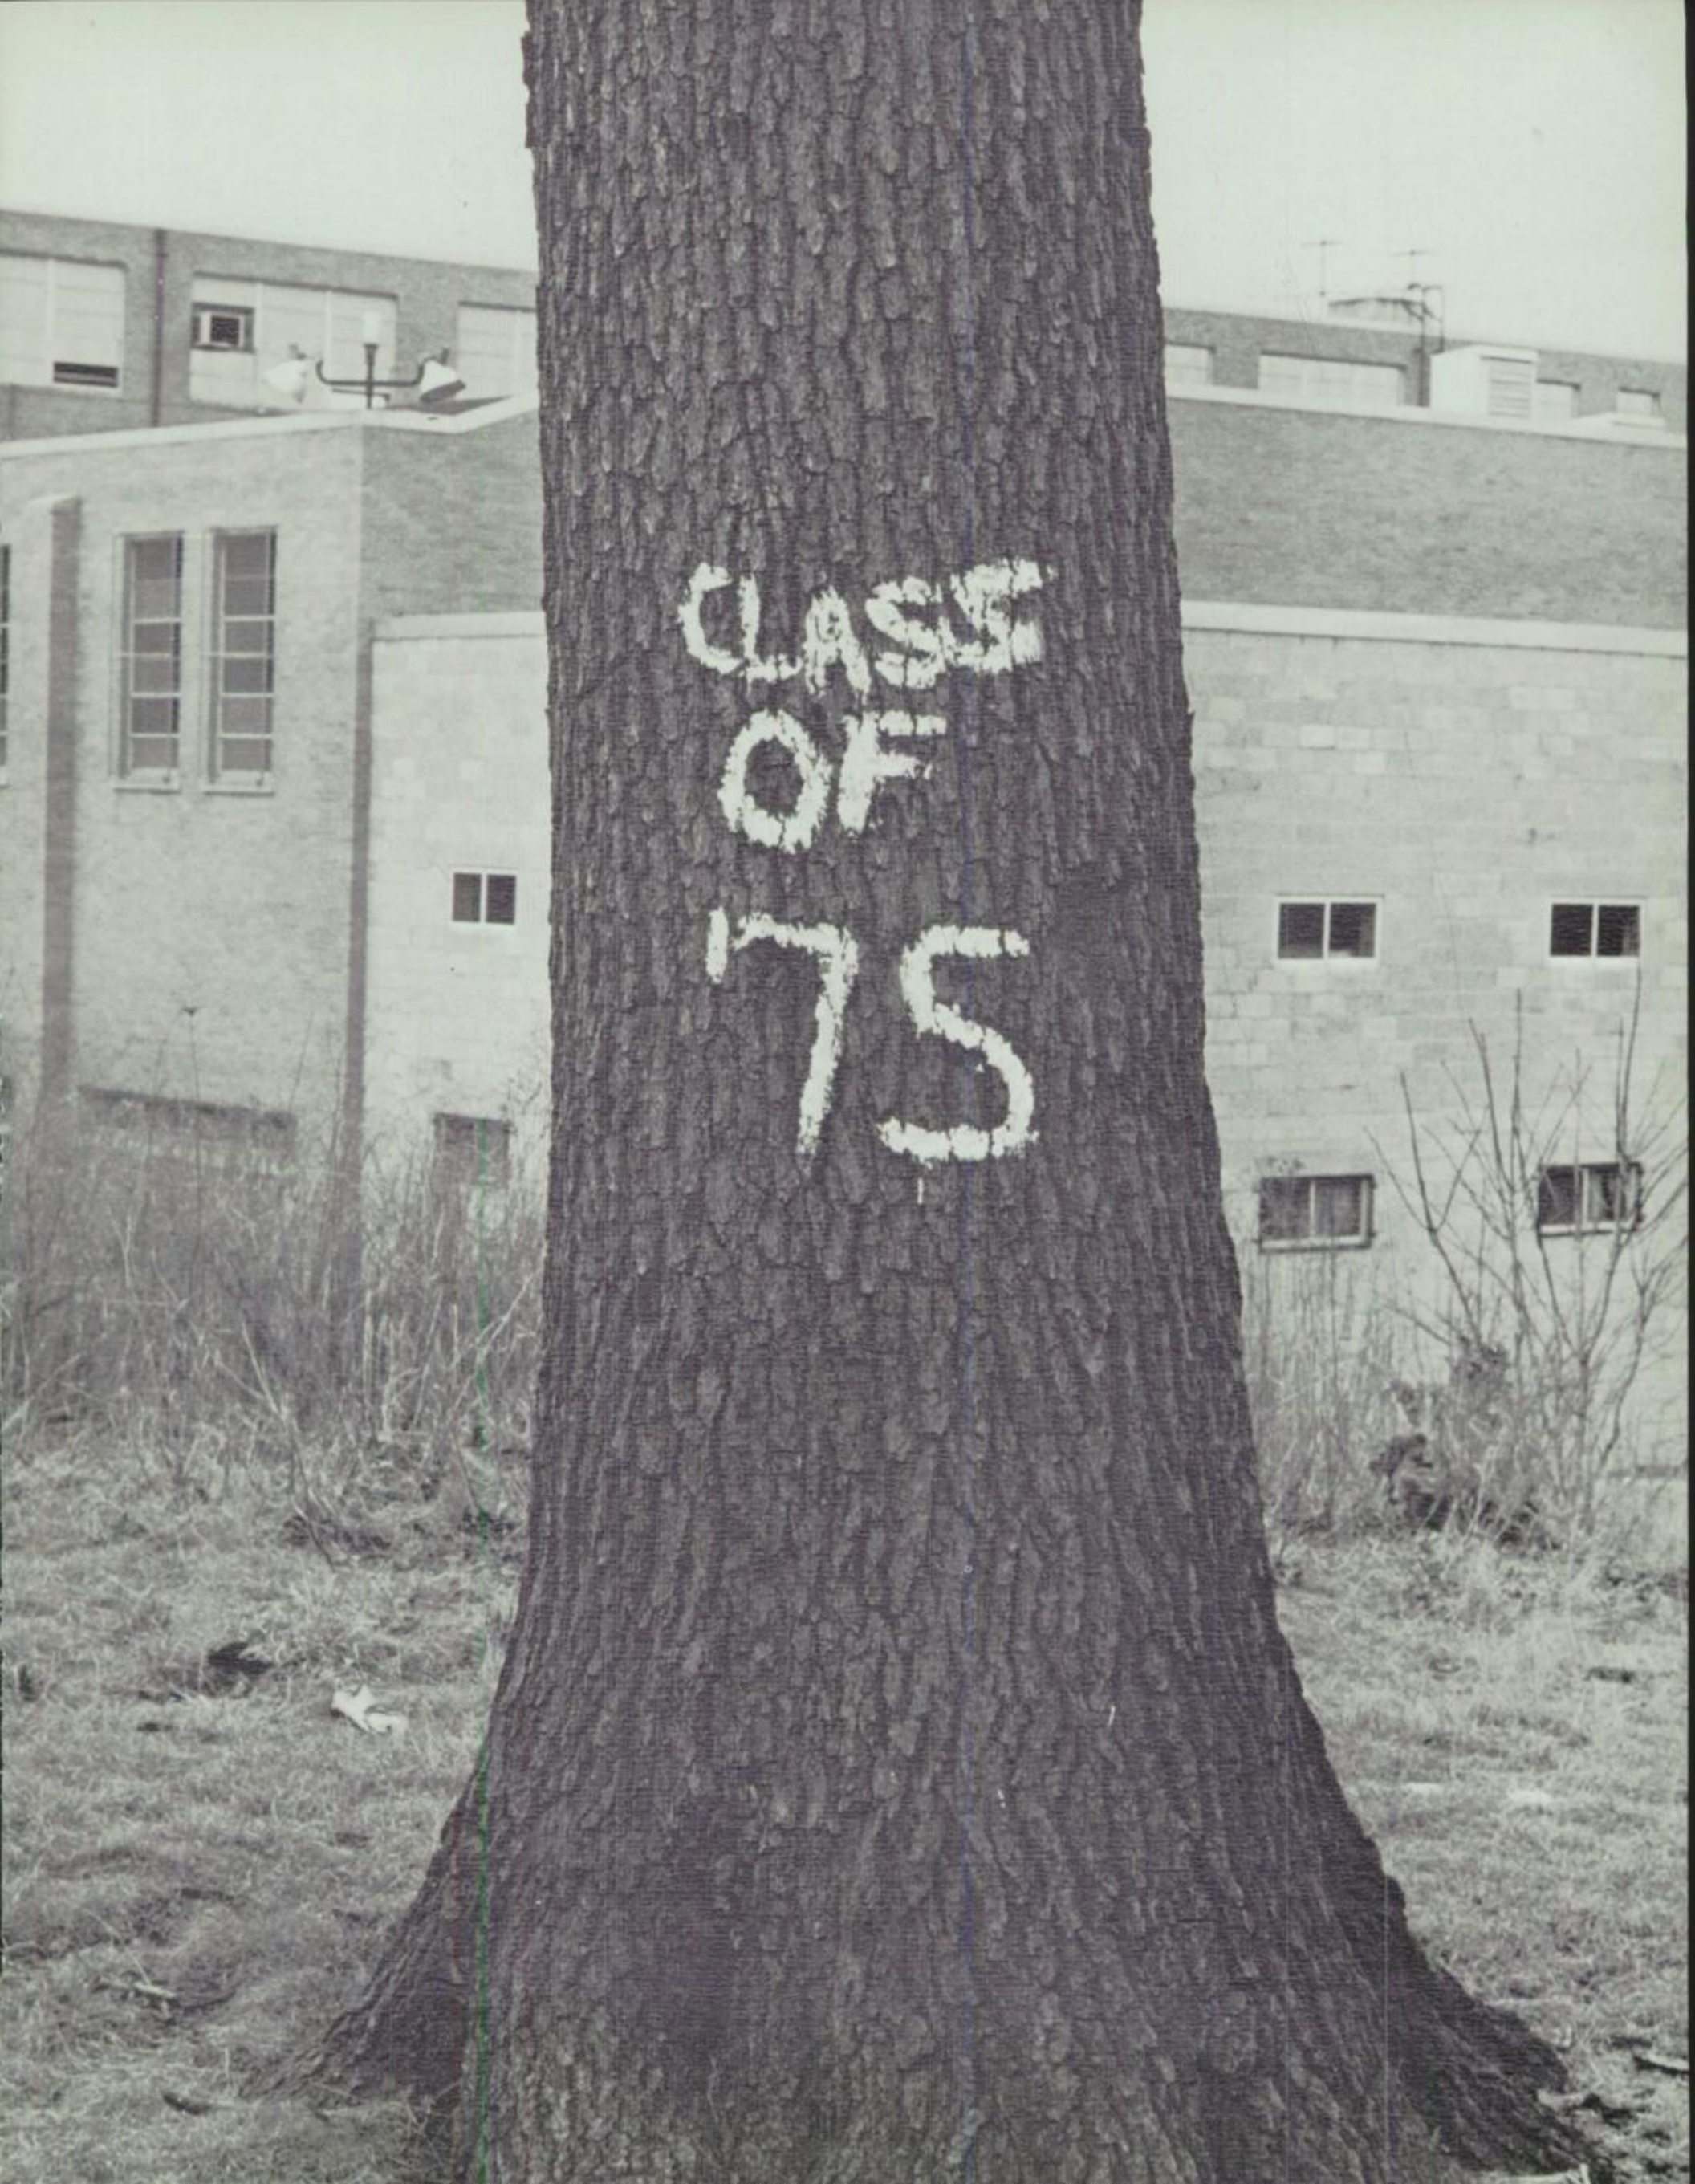

He was the student that left an imprint on all that knew him at Cardinal Dougherty.

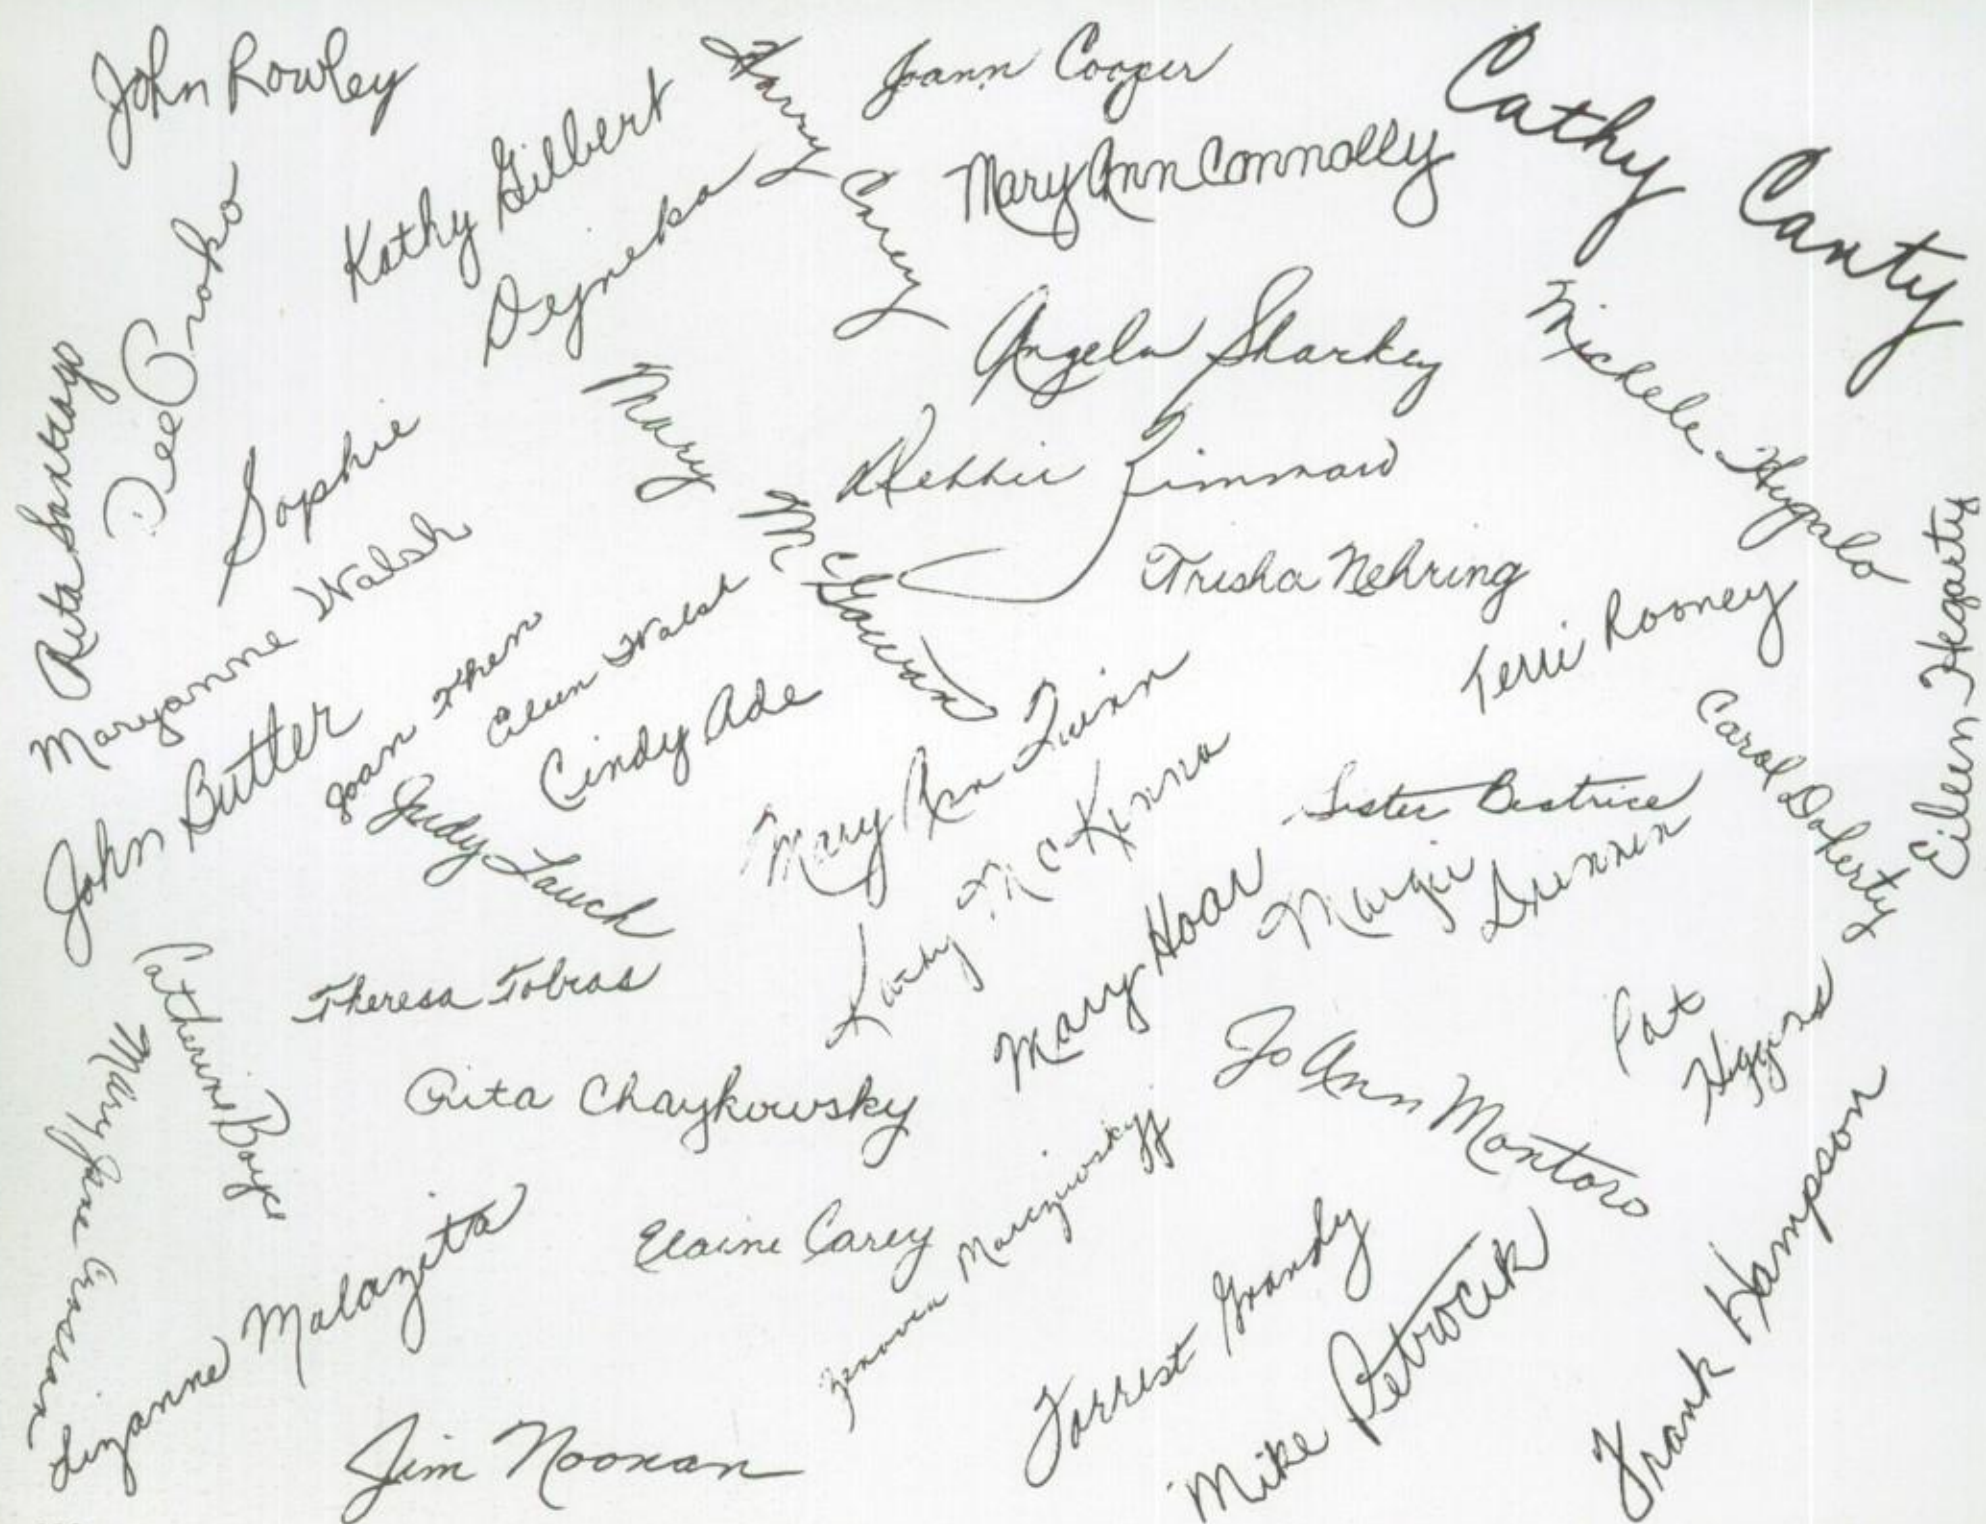

He was the man, that at the end proved what he was made of.

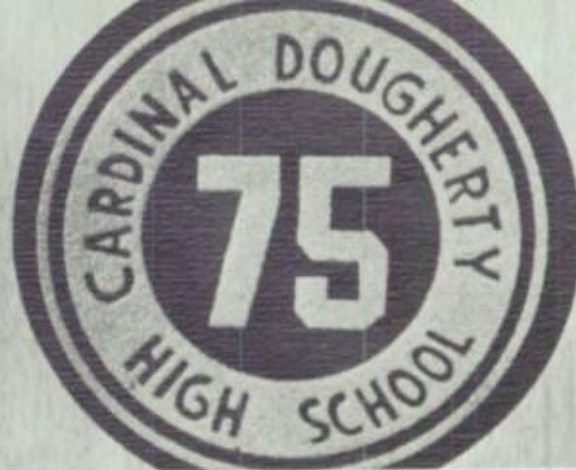

He was a friend that will be missed, but never forgotten.

YESTERDAY is already a dream.

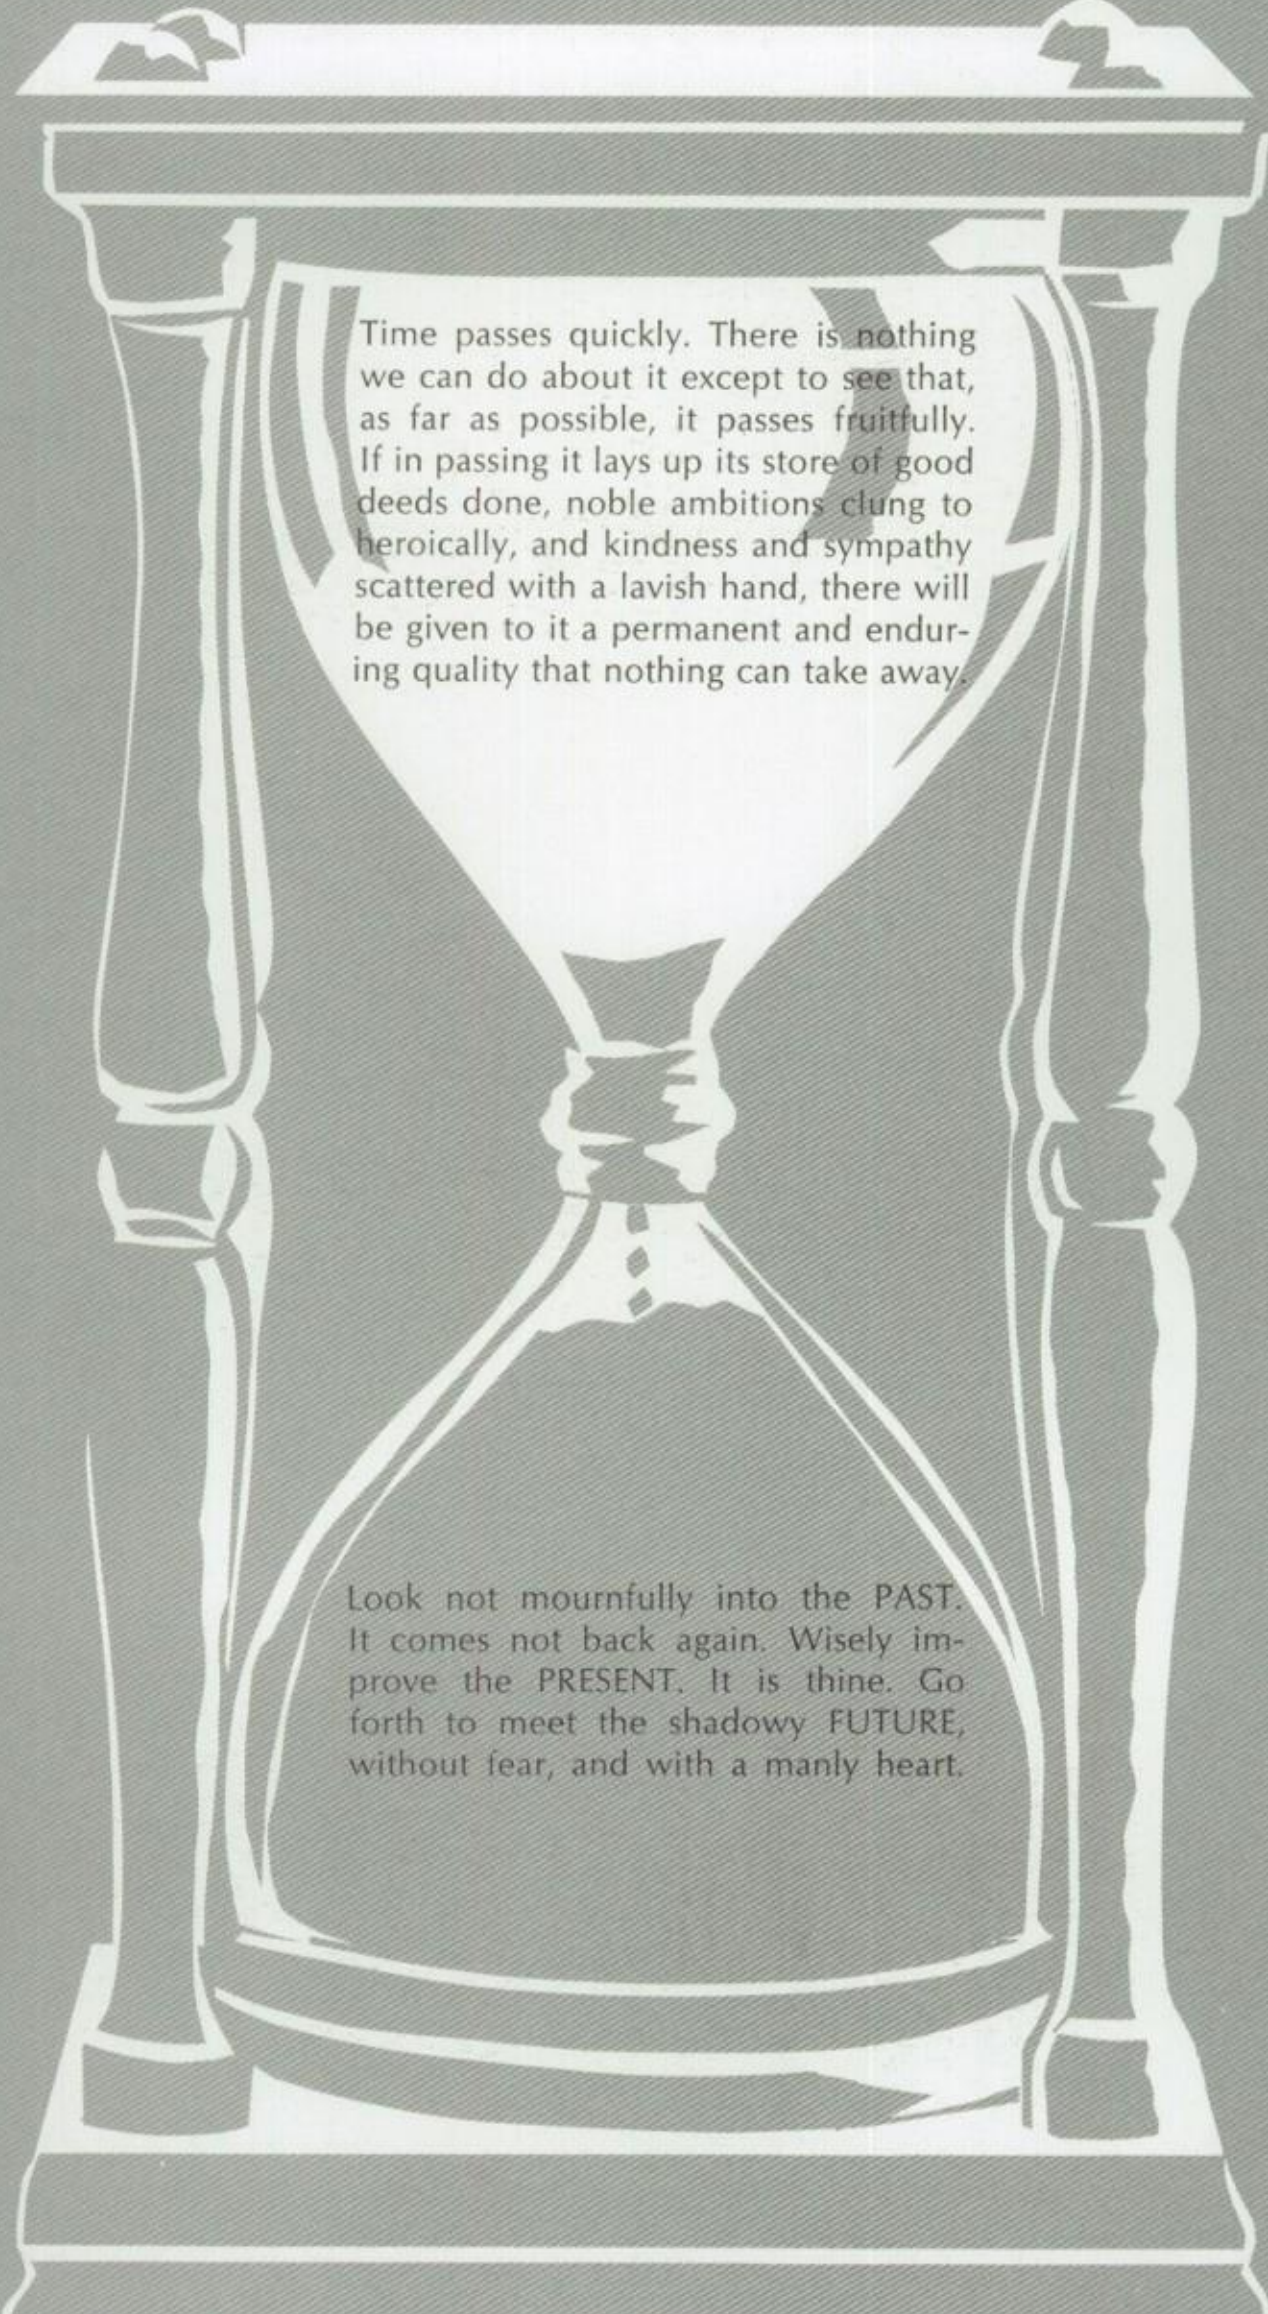

TOMORROW is only a vision.

But a TODAY well lived ...

Makes every YESTERDAY, a vision of happiness,

And every TOMORROW, a vision of hope.

Time passes quickly. There is nothing we can do about it except to see that, as far as possible, it passes fruitfully. If in passing it lays up its store of good deeds done, noble ambitions clung to heroically, and kindness and sympathy scattered with a lavish hand, there will be given to it a permanent and enduring quality that nothing can take away.

Look not mournfully into the PAST. It comes not back again. Wisely improve the PRESENT. It is thine. Go forth to meet the shadowy FUTURE, without fear, and with a manly heart.
